

Playing A Game and... I Lose

I stop and think about the fun I had playing the game.

I smile and tell the other players, "Good game."

Everyone will want to play with me again next time!

Sometimes I lose when I play games.

I get upset. I yell or cry.

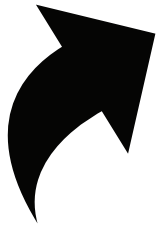

I say mean things to the other players.

No one will want to play with me again next time!

Playing A Game and... I Win

I stop to think about the other players. They may feel bad because they lost.

I smile and tell the other players, "You played great."

Everyone will want to play with me again next time!

Sometimes I win when I play games.

I start to celebrate in front of the other players and they feel bad.

I tell the other players I am better than them. I say what they did wrong.

No one will want to play with me again next time!
